A. R. Bhatt College

Objectives

Meet the needs of internal and external communities by:

- Providing lifelong education and training that produces graduates with the skills necessary to sustain individual career success within a global economy.
- Providing employers and communities with the human resources they will require for economic success and contribution to the community.
- Taking a leadership position in influencing education and other related public policies and conducting applied research that will create the new products and services necessary for sustaining the economic health of our external community.

Make ARB College the college of choice in our target market by:

- Providing high quality, innovative, and responsive education and training programs, including comprehensive education that lead toward certificates, diplomas and applied degrees.
- Advancing new approaches to education, including academic centres of excellence.
- Entering into alliances with industry and academic partners to enhance ARB's education and applied research thrust.
- Promoting the unique character of our college campus.
- Providing an effective, supportive, safe, accessible and affordable learning environment, using state-of-the-art information technologies, where appropriate, to support these directions.

Make ARB College the employer of choice for management, faculty and support staff by:

- Promoting a proactive approach to professional development.
- Ensuring that our people have the necessary support and tools to fulfil their responsibilities.
- Providing an effective, supportive, safe, secure and accessible working environment.
- Nurturing continuous improvement of working relationships at all levels in the college.

Value and respect our multi cultural diversity by:

- Sustaining an operating environment that capitalizes on the unique contributions of our multi cultural communities.
- Equipping our students with the skills necessary to respond to the opportunities and challenges associated with ever-changing societal demographics.

Vision

To achieve success in transforming lives through an innovative, rigorous, and compassionate approach to education.

This means

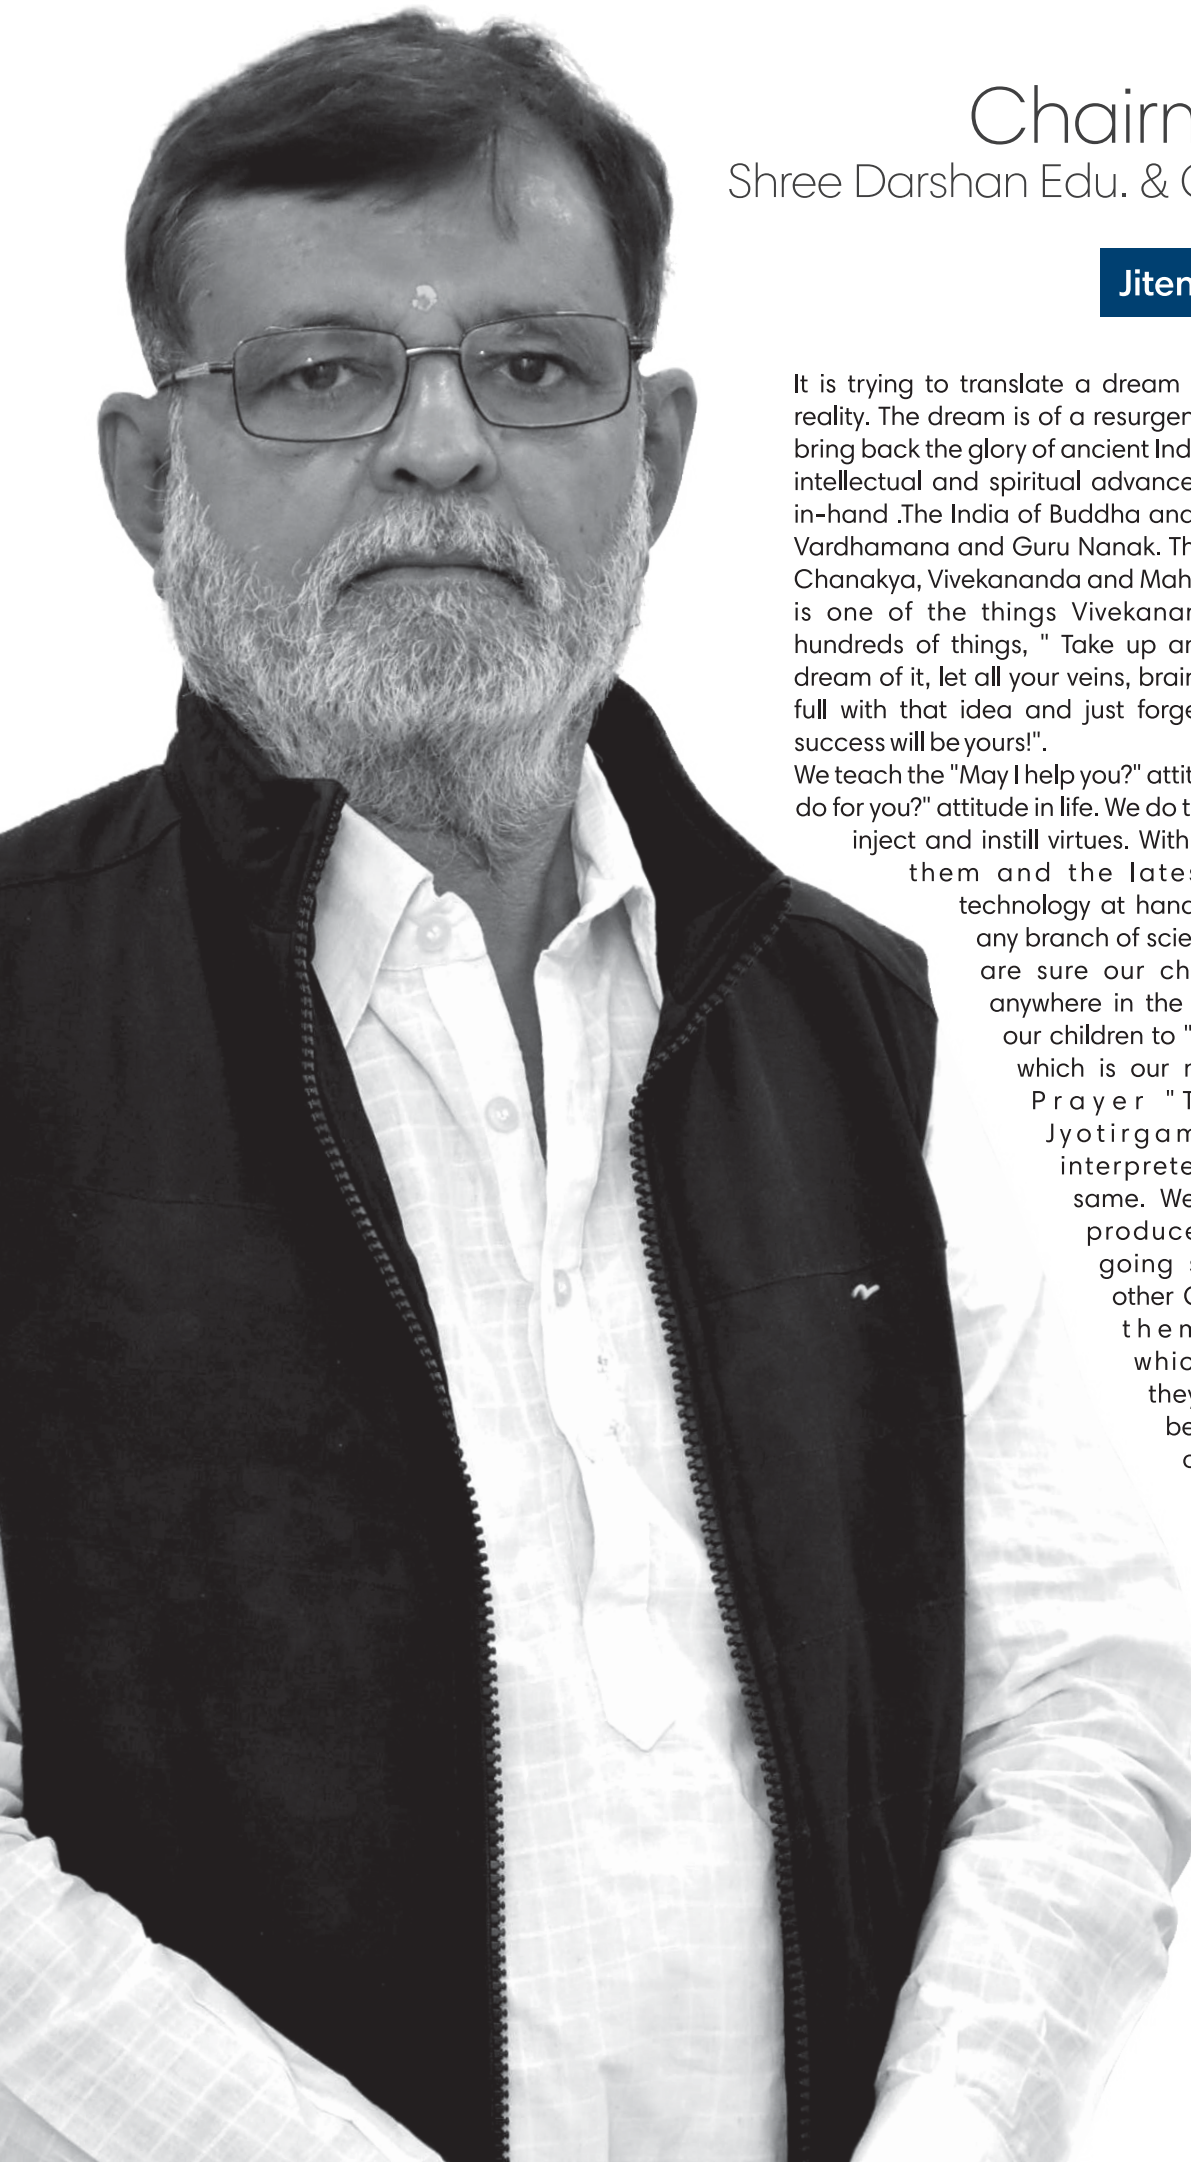

- We continually strive to strengthen and improve the positive impact we have on our students and community: transforming their lives, as well as our own, through our work.
- We will become known as an institution that "makes a difference"
- We continually strive to innovate – finding new and more effective ways to educate and serve students.
- We sustain rigor in our work – holding high standards and expectations for both our students and for ourselves.
- We approach our work with compassion – acknowledging the whole person, working with integrity and caring, accepting people where they are and moving them forward without sacrificing standards or expectations; bringing joy, honesty and understanding to our work.

Mission

Educating students for career success.

We make every decision to support the career and personal development of our learners. Our curriculum, teaching and services demonstrate that we value the diverse profiles of our learners.

Chairman of Shree Darshan Edu. & Chari. Trust

Jitendra A Bhatt

It is trying to translate a dream and an ideal into reality. The dream is of a resurgent India, which can bring back the glory of ancient India, where material, intellectual and spiritual advancement went hand-in-hand. The India of Buddha and Shankaracharya, Vardhamana and Guru Nanak. The India of Askoka, Chanakya, Vivekananda and Mahatma Gandhi. This is one of the things Vivekananda said among hundreds of things, "Take up an idea, think of it, dream of it, let all your veins, brains and muscles be full with that idea and just forget all other ideas; success will be yours!".

We teach the "May I help you?" attitude or "What can I do for you?" attitude in life. We do take a lot of care to

inject and instill virtues. With these qualities, in

them and the latest educational

technology at hand, in computers or

any branch of science they study, we

are sure our children can excel

anywhere in the world. We expect

our children to "Spread the Light",

which is our motto. The Indian

Prayer "Thamaso Ma

Jyotirgamaya" may be

interpreted to mean the

same. We are pledged to

produce the best out-

going students among

other Colleges. We want

them to excel in

whichever vocation

they choose and to

become truly useful

citizens and good

human beings.

We want some

of them to take

leading roles

in the country

to bring back

its ancient

glory.

Director of A.R. Bhatt College.

Siddharth Bhatt

**“ I have never let my schooling
interfere with my education. ”**

The above quote by Mark Twain is what best summarizes the education philosophy pursued at ARB. The core, systems and pedagogy ensures that students are taught how to think and not what to think. We create lifelong learners who are embodiment of ideal human being; who aim for growth which is inclusive rather than exclusive.

Education without values, as useful as it is, seems rather to make man a cleverer devil. Instead of creating future generation a materialistic icons, ARB instils in its students, the virtues of kindness, humility and compassion which can make the planet more beautiful place to live in.

Social scientists have a strong feeling that world would cease to exist if we do not radically change the way we live. To create a sustainable planet, disruption has thus become essential. ARB plays the role of disrupt or in overall education - the way we think, teach and learn. We aim for skill enhancement in different functional areas of education instead funneling down some conceptual wisdom. We strongly feel that ARB grad after successful completion of the programme should carry with him the confidence, self-belief through which he can very productively contribute from the word 'Go'.

With this educational philosophy as the backdrop, we would urge students to make best use of the opportunity of building not only the career but a life out of whole life at A.R. BHATT COLLEGE.

“

Education is the passport to the future,
for tomorrow belongs to those who prepare for it today.

from Malcolm X

”

Principal in charge of A.R. Bhatt College.

Janvi B Shah

Believing in the Philosophy, that the best way to give to the society is to give a Platform for youth Education, where Dreams can turn into Reality and Firm roots can bloom into Magnificent Trees.

ARB was started not only to impart Value based Holistic Education to the students but to create Global Citizens who carve a Niche for themselves in the competitive world which is beckoning them. Whilst at the same time they have respect for Indian Culture and Values.

ARB is a blend of Modernity and Tradition where the day begins with the Vibes of Positivity and ends with a prayer, In between these is a plethora of Activity, Classes with a Blend of Technology. Each day is an Amazing Learning Experience for the tutor and tiupil.

BBA | Bachelor of Business Administration

Duration : 3 Year

The degree is designed to give a broad knowledge of the functional aspects of a company and their interconnection, while also allowing for specialization in a particular area. BBA programs expose students to a variety of "core subjects" and allow students to specialize in a specific academic area. The degree also develops the student's practical, managerial skills, communication skills and business decision-making capability. Many programs incorporate training and practical experience, in the form of case projects, presentations, internships, industrial visits, and interaction with experts from the industry.

The core topics usually comprise:

- Accounting
- Business law and Ethics
- Economics
- Financial management
- Cost and management accounting
- Human resource management
- Management information systems
- Marketing
- Operations management
- Organizational behavior
- Quantitative techniques
(Business Statistics, Financial Mathematics, Operations Research)
- Strategic management

The specializations often include:

- Accounting
- Entrepreneurship
- Finance

- Human resource management
- International business
- Information technology
- Legal management
- Design management
- Management
- Management information systems
- Marketing
- Operations management
- Real estate
- Supply chain management
- Public relations
- Radio & TV production
- Tourism and Hospitality

BCA | Bachelor of Computer Application

Duration : 3 Year

Bachelor of Computer Applications is a course that is customized for students wishing to shine in the field of computers and information technology.

If you are interested in computer related field and even if you are not interested in computer field, but you have a fast thinking mind and can apply concepts and analyze the situation coming your way, then BCA is the perfect course for you.

Concepts and subjects studied in BCA are in par with engineering subjects.

After BCA if you do MCA there will be good opportunities in software field.

Future Scope:

There may be two chances of future scope

1. One can go for the job in software companies like Infosys, TCS, Google, Tech-Mehendra, Patni, WIPRO and some others software companies.
2. If one do not want to do job after BCA, then he/she may go for the higher studies. They may do MCA or MBA course depending on their interest. But we highly recommend doing MCA course after the BCA as it adds more value to your resume.

Employment Opportunities in India

There are a lot of employment opportunities in India for a person pursuing MCA or BCA. It is advisable to take work experience after doing BCA and then enroll for MCA as scope for a good position broadens if a person has relevant work experience along with the necessary skill sets. The courses focus on making the student familiar with technical languages at the bachelor's level and taking a specialization at the Master's level. After pursuing the necessary educational qualification, a person can seek job opportunities in the field of software developer, web designer, systems management, etc.
