BBA | Bachelor of Business Administration

Duration : 3 Year

The degree is designed to give a broad knowledge of the functional aspects of a company and their interconnection, while also allowing for specialization in a particular area. BBA programs expose students to a variety of "core subjects" and allow students to specialize in a specific academic area. The degree also develops the student's practical, managerial skills, communication skills and business decision-making capability. Many programs incorporate training and practical experience, in the form of case projects, presentations, internships, industrial visits, and interaction with experts from the industry.

The core topics usually comprise:

- Accounting • Business law and Ethics
- Economics • Financial management
- Cost and management accounting
- Human resource management
- Management information systems
- Marketing
- Operations management
- Organizational behavior
- Quantitative techniques (Business Statistics, Financial Mathematics, Operations Research)
- Strategic management

The specializations often include:

- Accounting • Entrepreneurship • Finance
- Aviation management • Human resource management
- International business • Information technology
- Legal management • Design management
- Management • Management information systems
- Marketing • Operations management
- Real estate • Supply chain management
- Public relations • Radio & TV production
- Tourism and Hospitality

BCA | Bachelor of Computer Application

Duration : 3 Year

Bachelor of Computer Applications is a course that is customized for students wishing to shine in the field of computers and information technology.

If you are interested in computer related field and even if you are not interested in computer field, but you have a fast thinking mind and can apply concepts and analyze the situation coming your way, then BCA is the perfect course for you.

Concepts and subjects studied in BCA are in par with engineering subjects.

After BCA if you do MCA there will be good opportunities in software field.

Future Scope:

There may be two chances of future scope

1. One can go for the job in software companies like Infosys, TCS, Google, Tech-Mehendra, Patni, WIPRO and some others software companies.

2. If one do not want to do job after BCA, then he/she may go for the higher studies. They may do MCA or MBA course depending on their interest. But we highly recommend doing MCA course after the BCA as it adds more value to your resume.

Employment Opportunities in India

There are a lot of employment opportunities in India for a person pursuing MCA or BCA. It is advisable to take work experience after doing BCA and then enroll for MCA as scope for a good position broadens if a person has relevant work experience along with the necessary skill sets. The courses focus on making the student familiar with technical languages at the bachelor's level and taking a specialization at the Master's level. After pursuing the necessary educational qualification, a person can seek job opportunities in the field of software developer, web designer, systems management, etc.
